Adolf Hitler took NO money from Jews – the perfidious and subtle machinations of the Jews in the "national camp"

Rumors circulate repeatedly and inexorably on the Internet, especially on "national" sites and blogs, that Adolf Hitler took Jewish money to build his party and the new Germany.

These claims and rumors come exclusively from Jews and their disinformation agents, such as "Larry Summers" (now just "Larry")!

When directly confronted with this, the Jews spreading this disinformation always react the same way, just like "Larry Summers." They justify themselves by claiming that they "never" claimed that Adolf Hitler demonstrably **took** this money, but immediately downplay their claim by responding with a consistent, subliminal "counter-question" of the following kind:

"What would be so bad about Adolf Hitler taking money from Jews? After all, he used it for a good cause, building his party and the new Germany with it, and giving it to the German people. He wanted to do to the Jews just as the Jews did to us, in that Adolf Hitler NEVER intended to pay back this money or to comply with the 'conditions' attached to it."

.

I will now give the answer to WHAT would be so bad about it.

A crime always remains a crime, and a criminal always remains a criminal, regardless of whether his name is Adolf Hitler or he is a Jew. The end does NOT justify the means!

Intentional fraud and deception—a serious offense—are portrayed in this argument as something **very** good, as long as the purpose of the fraud is "holy." Adolf Hitler is thereby degraded to the level of a Jew and completely stripped of his honor.

What MUST NOT be simply **CAN'T be!** Adolf Hitler COULDN'T have achieved it on his own, but ONLY with Jewish support!

We all know who has no problem with fraud and fraudsters and who supports and celebrates them. This is how "Larry Summers" and his crew are supposed to present fraud and swindling to the German reader as something exemplary, and their sense of honor and integrity is dulled and desensitized. If possible, ALL Germans are supposed to be brought down to the level of the Jews and repeat to THEMSELVES that Adolf Hitler was a "fraudster" and that it is NOT BAD if Adolf Hitler had taken Jewish money, even though in reality it would have been an indescribable and devastating catastrophe of immeasurable proportions and the ultimate ruin for all Germans.

The fact that Adolf Hitler "never" accepted Jewish money to support his aims has already been proven in great detail and beyond doubt, and corresponding counterstatements have been exposed as forgeries on numerous occasions. Adolf Hitler already conducted 123 lawsuits against such infamous lies about him, all of which he won without exception, before hostile courts, by providing evidence of the actual circumstances.

I'm deliberately not mentioning any of the disinformation agents who repeatedly spread this "imposter version" of Adolf Hitler online, except for "Larry Summers," because I'm hoping for the reading and insightful ability of the respective blog visitors. Perhaps some Jews will "recognize" themselves in this and "take it on themselves" by reacting completely as expected (as always).

Again, I didn't mention ANY names except "Larry Summers"!

Conclusion: Through this argument by "Larry Summers," the reader is instilled with the image of Adolf Hitler as a "fraudster, crook, and deceiver"—who, according to "Larry Summers," along with all his fellow campaigners, was "proven" to have "involvement with the Zionists and Jesuits"—while simultaneously dulling their sense of right and wrong. German honor, upon which our actions must be based, is portrayed as something undesirable and as an unimportant and outdated relic from a "long-gone" era, to which only a few "diehards" still cling.

If Adolf Hitler, with the firm intention of never repaying it and using it for purposes other than "agreed upon," had accepted Jewish money to build his party and Germany against the wishes of his Jewish donors, then he would have been a deceiver, a crook, and a deliberate fraud. He would have deceived and cheated not only the Jews, but the entire German people, who would then have been kept in the "false belief" that the necessary funds for party work would come solely from honestly earned entrance fees, hall fees, membership dues, voluntary donations, magazines, books, and other publications , as well as promotional materials. Furthermore, ALL verifiable publications from this period about the growth of the party and the correspondingly verifiably increasing "increase in funds" would logically be forgeries. Likewise, all books and publications from that time about the hard and sometimes penniless struggle of the young party, its fighters, and their high death toll. They MUST all be deliberate forgeries!

Adolf Hitler would have based his entire work and deeds "for Germany" on deceit and NOT on German honor, on ambitious, fanatical, determined, and dogged struggle, on willpower and utmost effort, as well as a high blood toll. The Jew's "revenge" would thus have been more than "justified" and inevitably pre-programmed. After all, this Hitler had betrayed and deceived them to the utmost, which would ultimately justify a "Jewish" declaration of war. After all, Hitler's Germans DESERVED nothing less and had to be, and still have to be, severely punished for it to this day.

The German "honor," of which Adolf Hitler represents the epitome for every upright German nationalist, and especially "National Socialist," is thus completely torn from his very being. This is intended to convey to us Germans: Adolf Hitler had NO honor! He was a dishonorable crook, deceiver, and fraud! He did NOT achieve German "freedom" through his own efforts, through the loyal support of his German comrades and fellow fighters, but ONLY through Jewish support!

To the complete horror of all nationalists who are still able to think and who have remained upright, there are more and more parrots and representatives of this disgusting “impostor version” of Adolf Hitler.

Let me repeat: Adolf Hitler was and IS the epitome of German honor, German courage, determined will, and the German heroic struggle for freedom. By taking away his "honor," one places him on the same level as the completely dishonorable Jew. This is precisely the intended purpose of this argument: "What would be so bad about it if the savior and pioneer of Germany's future and German life were a criminal, a liar, and a deceiver, a first-class deceiver?"

The implied message for us is now this:

"German nationalists, never imagine that you can achieve your goal through your own strength, only through German honor, willpower, iron determination, sincerity, and honest struggle. Even your greatest role model in this struggle, 'Adolf Hitler,' achieved what he achieved ONLY and exclusively through Jewish support. So, don't even try, or give up!"

But what did Adolf Hitler himself say about this?

"Never believe in foreign help, never in help that lies outside our own nation, our own people. <u>The future of the German people lies in ourselves alone</u> . If we ourselves lead this German people to their own work, their own diligence, their own determination, their own defiance, their own perseverance, then we will rise again, just as our fathers once did not receive Germany as a gift, but had to create it themselves."

– from his first speech as Reich Chancellor in the Berlin Sportpalast, 10 February 1933 –
